Summary

PhD-trained physicist with 5+ years of experience, I bring a strong foundation in analytical thinking and structured problem-solving across data science and MLOps initiatives. I have developed, deployed, and maintained machine learning solutions with a strong focus on reliability, and impact leveraging AWS services to build reliable, automated pipelines. Known for being an attentive listener, I'm skilled at understanding the needs of others and translating them into practical, measurable outcomes. As a collaborative team member, I aim to bridge the gap between data solutions and human experience, always balancing impact, reliability, and empathy.

Skills: **Programming & Data Analysis:** Python, SQL, NoSQL, NumPy, Pandas, Polars, Scikit-Learn, Jupyter; **Data Visualization & Reporting:** Plotly, Streamlit, Quarto; **Machine Learning Operations:** MLflow, Comet, Docker, SageMaker, Airflow; **Cloud Infrastructure:** AWS, Infrastructure as Code; **Version Control & CI/CD:** Git, GitLab CI/CD; **Project Management & Collaboration:** Agile methodologies, cross-functional team leadership
